ARTitude Galería presents *Wealth of Nature*

ARTitude Galería is pleased to present *Wealth of Nature*, a group exhibition bringing together **Carla Talopp, Tana Gaxiola, Yosman Botero,** and **Tunku Khalsom**. Through four distinct artistic languages, the exhibition explores nature as a source of vitality, transformation, perception, and emotional resonance.

Rather than treating nature as a passive backdrop, *Wealth of Nature* considers it as an active force that shapes both inner and external worlds. Across colour, gesture, texture, and form, the exhibition reflects on nature as a field of beauty, energy, fluidity, fragility, and renewal, inviting viewers to consider the many ways the natural world continues to influence how we feel, imagine, and make sense of life around us.

For **Carla Talopp**, nature appears as an immersive and sensorial environment in which jungle, seabed, dreamscape, and inner landscape begin to merge. Her vivid, large-scale works celebrate the beauty and intensity of life while evoking the fragility and transformation of natural ecosystems. **Tana Gaxiola** approaches nature through movement, rhythm, and colour, transforming its energy into dynamic paintings filled with strength, vitality, and visual vibration.

In **Yosman Botero's** practice, nature is approached through perception and instability. His works open a space between beauty and the uncanny, encouraging viewers to question the structures through which reality is constructed and understood. For **Tunku Khalsom**, nature is fluid, emotive, and inseparable from the cycles of life, love, and change. Working primarily with inks, she uses movement and bold colour to create works that reflect growth, transformation, and the expressive power of organic form.

Together, the four artists present nature as a space of abundance and complexity — sensual, energetic, fragile, and reflective. *Wealth of Nature* offers a shared meditation on the forces that connect human experience to the living world.
